ALSO FEATURED IN GAMES BRANCH: Sideshow Drone Arena: Enter the den of the evil Drone Sniper! Top-down iOS puzzle-action game includes 45 levels of drone-shooting fun. Escape From Crazy Castle: Winner of the Best iOS Crossover Game award at Game Stars 2013. Explore the kingdom of the "crazy castle" in our latest mobile game! THE GOOD STUFF: Perils of the Warp by Abrakadabra Games (First Pub Date for Smartphone: Sep 21, 2012) Perilous Warp is an action-adventure, top-down mobile RPG for iOS, using a 3D engine from Smartphone Wars that powers and shapes every element. The game is an offline 2D game with no connection to the internet available, no in-app purchases, and no ads. WHAT DOES THIS MEAN? There is no connection to the iTunes store, to Facebook, or to any other place. All items in this game can be earned by the player in order to gain more experience and gold as they progress through the game. The in-game currency and progression is solely meant to encourage the player to progress further into the game, making Perilous Warp a game entirely crafted to be fun and engaging without any in-game purchases and without having to rely on social networks that one so often has to share his progress with. During development of the game, it was left to the player to choose whether

A new, original RPG with a world of self-discovery, exploration, and adventuring, but more importantly, a world that's utterly unique, developed by a bunch of game developers who love the genre they're working in. We're passionate about creating a game that gives you the power to discover something new, not only about yourself but about the world around you. Adventure is not a common occurrence in a game. And we want to deliver a character experience that's not based off a series of set events, and a journey that's not constrained by a linear narrative. Your story is your own. Your actions are not predetermined. You can choose how to act or react at any given time. The game you play through is entirely up to you. We want the game to be a cohesive, immersive experience that's

engaging and rewarding, but also one that's easy to get into. We've created a game that's the dream for any RPG fan. We've developed it with the best game developers in the world. We've partnered with Sony to be able to deliver the game on their platform. We've poured our souls into this game and we want you to be able to enjoy it, so we're making it the best experience we can. Adventure is here. And it's here to stay. - Your character is free to choose their own path to adventure.- There are no mandatory dialogue sequences to speak with NPCs. You are never forced to engage in a dialogue tree to complete a quest.- Your character is free to follow their own path with different characters, or go off-script with different dialogue choices.- You can rest in a bed to heal during combat to get your Strength back, and watch the town burn at the same time! You can sleep in a bed and watch over it at any time, no matter where you are.- A simple, intuitive interface make navigating your map simple and easy. We're also working on a masterly control method for mobile.- The game is beautifully designed and will look great on PS4.- The game will be released at launch, or later on if Nintendo and Microsoft decide to support it.- There will be a free update to the game with new story content and optional new character art.- We're actively recruiting voice actors and voice direction actors to help bring the world of Alrest to life.- Our
