potential of mobile games and how we can re-write these apps to suit the mobile development platforms.

I sketched out an illustration of the characters head, wig, and jacket.

- The head was given a silly looking bowl haircut.
- The Jacket was covered with buttons and velcro
- The crown was based on a Cabbage Patch Doll.

I drew the Coffee Pixes character and placed them into a Kivy Box to give a feel of a game.

Follow Us On Google Plus The most entertaining game on this list is probably Bomber Man (or Red Baron if that's the version you play). In fact, most of this game's appeal comes from the fact that you can play it with your friends, and if they don't have the rules in front of them, you can find them online. However, there are two flaws with this game that make it less than a perfect game. First, there is a lot of paperwork to get through, before you get to the actual game, and the second is that it is more the addictiveness of the game that has kept it on the charts. This game is the consumable of the World War II era, and is awesome for you to play with your friends! El Camino del Diablo Game "El Camino del Diablo" Gameplay: Colossal Caverns Game "Colossal Caverns" Gameplay: What if someone asked you to build a really large cavern? Well, if you had a couple hundred years, maybe you could use it to store all your junk, and keep it dust free. However, as it turns out, it is a heck of a lot more fun to have a lot of junk inside a really big cavern, and you can buy one too! This game is so addictive, you'll find yourself playing it again and again, and because there are so many things to see, play, and buy, you won't want to put it down. The graphics are done in a really easy way that makes it really look good, but it doesn't take long to get bored of it. This is a really great game. It's on

the front page of the Chart because it is fun, and you can almost imagine what it's like to be that giant fighting hero. You can create your own action packed adventure filled with explosions and bullets. It's even easy to customize your own character and level up to make him or her better. This is a great game to play on your phone, as you can easily destroy some of the monsters you encounter, and it comes with a lot of graphics to display. Real Football Manager Game "Real Football Manager" Gameplay: Real Football Manager (RFM) is a football management game set in the real world, so you can prove that the American Football Manager series isn't the only game people are playing. You can compete with real teams, sign real players, and develop your

**INGALE Sound, They sent a stream of contaminated water to the city. Tap water can be the source of the contamination, making the water very little useful. But Petrie said water supplies from the last two years have been tested and have all been fine. So to have a sewer main break in one of the stormwater lines and the water show up in the pet stores could be the result of the stormwater system. But most people are just happy to get clean water. We are just grateful, isn't there a rule where whenever one of these events occurs they ought to be closed for a while? Sounds like we could get a rule put in place. There are other contamination issues with the water supply. This is probably the best the neighborhood has been in quite a while. So glad they are clean. MACCLURE: THANK YOU FOR NUMBER ONE □ well, your words, none of us can take credit for it. But □ you know, I've seen a lot of people scrambling to get this raised up. You know, I have two kids, 9 and 6, and every time I have their wake their little brother, 3, up and say, Dad, come check our wells, you know, we got water in the sink. And every time it's not good. And I'm one of those people waking up in the middle of the night and checking it out. I did the same for two weeks and got up and said, God, thank you. It is just pure relief. I was happy to even have stopped checking it because those kids are cute, they don't get a lot of attention from mom. You know, I'm blessed. But so I feel blessed and so does my family. And I hope the people of Flint get the same thing. MACCLURE: NUMBER TWO □ right. RACHEL: QUESTIONS? Q: Do I have to report it? A: You've got a federal investigation going on in the city, you may have to. That's up to you. But I would say the reason we checked it out was that it was getting tested, and it was positive. And if somebody cannot afford to test their water, somebody's paid to be there to test it and figure out how to get that fixed. And, you know, it wasn't something that just**
